

ELECTRIC RATES

GS3 - GENERAL SERVICE ELECTRIC VEHICLE TIME-OF-DEMAND (T.O.D.) RATE SCHEDULE

I. Rate Designations

Rate No. 151

II. Applicability

Separately metered service for electric vehicle charger(s) with an aggregate nameplate capacity ≤ 75 kW. Customers are prohibited from connecting any other loads to this service other than the vehicle charger(s). A Time-of-Use meter will be required to meter energy (kWh) and peak demand (kW) during the On-Peak and Off-Peak periods. The billing demand shall be the customer's greatest 15-minute demand in kilowatts (kW) incurred during the On-Peak period for which the bill is rendered.

III. Monthly Rates

	ON-PEAK 8 A.M. to 10 P.M. Mon. – Fri.	OFF-PEAK 10:01 P.M. to 7:59 A.M. Mon. – Fri. All Hours Sat. & Sun. *	Monthly Cost
Customer Charge (\$/mo.)			36.41
Transmission & Capacity Charges (\$/kW/mo.)	8.50	0.00	
Distribution Capacity Charge (\$/mo.)			50.74
Power Supply Energy Charge (\$/kWh)	0.0550	0.0414	
PCAE – Energy (\$/kWh)	Calculated Quarterly	Calculated Quarterly	

* Also Includes: All Hours on Jan 1, Memorial Day, July 4, Thanksgiving Day, Labor Day, December 25

IV. Minimum Bill

Customer Charge, Distribution Capacity Charge

V. Special Terms and Provisions

- Customers who have their meter turned off and back on within a 12-month period will pay the minimum monthly charges, applicable to the customer, for the months while service was not being used.
- Customers are responsible for compliance with all applicable statutes and regulations governing the provision of electric vehicle charging, including, but not limited to, all taxing requirements, service rules and regulations established by CRMU, the State of Iowa, the Iowa Utilities Board, the Department of Revenue and any other jurisdictional entity.

VI. Late Payment Charge

1½% on the delinquent balance after 20 days

VII. Sales Tax

Applicable sales tax additional

Applicability Detail

Available to any general service, commercial or industrial enterprise. A commercial enterprise is defined as a property classified as commercial or intended for commercial use and/or providing goods/services for resale to the general public. An industrial enterprise is defined as one making/creating (manufacturing) tangible goods for resale. Service under this rate schedule applies to multiple family dwellings (two or more units) served through one common meter or a single meter which provides service to at least one dwelling unit and building common areas such as hallway lights, laundry houses, service to separately metered residential-based structures where there is no dwelling unit (garages, barns, pumps, etc.).

This rate schedule may also be applied to small/medium warehouses, storage buildings/complexes, office buildings and office spaces, restaurants, convenience stores, assembly shops, laboratories, concrete mixing and manufacture, machine shops, churches, public/private schools, non-profit housing served through a single meter, etc.
