### Applicability Detail

This rate class applies to seasonal agricultural loads with a peak demand greater than 1 MW. The customer will also be billed based upon a demand ratchet of 65% of the highest demand reading in the past 12 billing periods – with the larger of the actual reading or ratchet being billed for the related Distribution & Transmission Capacity Charges. The billing demand shall be the customer's greatest 15-minute demand in kilowatts (kW) incurred during the month for which the bill is rendered.
