Applicability Detail

Available to all large-volume commercial and industrial customers at one location at 60 Hertz, single phase and/or three phase service through one meter at the secondary voltage available at the customer's location. A large-volume commercial enterprise is defined as a property classified as commercial or intended for commercial use and/or providing goods/services for resale to the general public. A large-volume industrial enterprise is defined as one making/creating (manufacturing) tangible goods for resale. Service under this rate schedule applies to, but is not limited to, electric heating service, manufacturing facilities/foundries, large warehouses/distribution facilities, large retail/grocery stores, large convenience stores, large apartment complexes, large office buildings. Depending on the service size and load requirements, this rate schedule may also be applied to restaurants, assembly shops, laboratories, concrete mixing and manufacture, and machine shops.

Determination of Billing Demand

The billing demand shall be the customer's greatest 15-minute demand, in kilowatts, incurred during the month for which the bill is rendered, but no less than 65% of the highest billing demand during the preceding 11 months.
