

NATURAL GAS RATES

PURCHASED GAS ADJUSTMENT (PGA) RATE SCHEDULE

The purchased gas adjustment (PGA) shall be calculated to account for the actual costs associated with purchasing and delivering gas to CRMU's border station. Prior to each billing, a calculation shall be made to determine this actual value which will be charged for each unit (hcf) consumed during that billing period.

PGA Components

1. Weighted Average Cost of Gas
 - The commodity cost of the monthly average weighted cost of natural gas purchased.
2. Transportation Costs
 - The demand and variable costs associated with the transportation and delivery of natural gas to CRMU's town border station.
